NEWS
LETTER

Design engineers turn designs into reality. Without them, a great idea but nothing more than, well, a great idea.

BUCCI SPECIAL

The company was founded by late Argentinian Formula One driver Clemar Bucci, who passed away in 2011 and could not see his project completed.

The design features very compact dimensions, with a total length of 4 meters and a height of just 87 cm., and has some reminiscences of the Pininfarina Ferrari Rossa Concept (2000) especially in the surface treatment of the side and rear sections.

TOYOTA CAMATTE57s CONCEPT

The Camatte57s concept features a body made of 57 lightweight, detachable panels that allow easy and extensive color and design customization

The interior features three seats arranged in a 1+2 triangular configuration

BMW 4 SERIES COUPE

The lines of the production version of the BMW 4 Series Coupe – except from a number of minor details – are practically identical to the ones previewed with the Concept 4 Series Coupe,

The model, which is now separated from the 3 Series line-up, is larger in width (+43mm) and wheelbase (+50mm) and has a reduced height (-16mm).

ASTON MARTIN V12 VANTAGE S

Aesthetically, the most noticeable feature is the car's grille, where the aluminum vanes are replaced with a new carbon fiber arrangement that includes sporty black carbon fibre.

The new car replaces the outgoing V12 Vantage in markets around the world and, with the exception of the One-77 hypercar, is the fastest road-going Aston Martin

NISSAN ZEOD RC LE MANS ELECTRIC RACING CAR

Nissan has revealed the ZEOD RC (Zero Emission On Demand Racing Car)

Nissan will trial variants of new electric drive train technologies as part of its intended future return to LM P1 competition to challenge for overall victory.

The ZEOD is expected to race alternately using gasoline and electric power.

Performance-wise, the ZEOD is expected to match that of the LMP1 cars--the top-level prototypes run by Audi, Toyota and others. That would put its performance a class higher than that of the gasoline Deltawing

2014 MAZDA 3

The next-generation Mazda3's styling mirrors that of the mid-sized Mazda6. It employs similarly curvy fenders and the large inverted pentagon grille of Mazda's kodo design theme. Both cars have a slung-back stance and styling flourishes that flare from the grille and intersect the headlamp areas.

The upcoming Mazda3 will feature a new car connectivity system with a fresh driver interface. Dubbed i-Active sense, it will aid the driver in recognizing and avoiding hazards.

FORD ECOSPORT

The wait for one of the country's biggest launches this year is now over as Ford had announced earlier, it has indeed launched its EcoSport MINI SUV with three engine options; a 1.0-litre petrol EcoBoost plus the 1.5-litre petrol and diesel motors that power the new Fiesta sedan. While the 1.0-litre EcoBoost engine develops a maximum of 125PS of power, the 1.5-litre petrol and diesel units put out 112PS and 91PS respectively.

To start with, there will be four variants of the news Ford EcoSport on offer, which, in order of features and prices, are Ambiente, Trend, Titanium and Titanium (O). With the compact SUV model now officially on sale

MARUTI SUZUKI ALTO 800 VXi LAUNCHED

The Alto 800 has now come back fighting with a new top-end VXi variant that packs in more features and styling elements than the earlier top-of-the-line LXi variant.

The Maruti Suzuki Alto 800 VXi packs in additional equipment such as central locking, a USB compatible stereo that is hooked to four speakers, left outside rear view mirror and a driver's side airbag as standard. Cosmetic enhancements include door side mouldings and a rear spoiler.

LAMBORGHINI LAUNCHES LIMITED EDITION GALLARDO LP550-2 FOR INDIA

Italian supercar marque, Lamborghini launched an India-specific model of the Gallardo LP550-2 titled 'India Serie Speciale' and these are limited to just six units.

The India limited edition Gallardo would be only available only in three colours options, which are pearl orange (Arancio Borealis), white (Bianco Monocerus) and pearl green (Verde Ithaca) symbolising the Indian tricolour.

Audi introduces a wireless mouse

Audi has launched another wireless computer mouse styled in the shape of an Audi vehicle, to its merchandise which will be available across all dealerships countrywide. The mouse is compatible with a PC or Mac and is priced at Rs. 5,559.

German luxury maker Audi added another cool item to its list of funky merchandise, this time a computer mouse in the shape of its vehicle. If taking your favorite luxury brand to work is the trend to follow, then nothing like a computer mouse with the 'lord of the four rings' etched across it.

Volvo V40 Cross Country Launched

The Volvo V40 Cross Country is a more beefed up version of the V40 hatchback. It features bigger alloy-wheels with chunky tyres, body claddings, roof rails, skid plate and blackened rear view mirrors. The five-seater Cross Country comes with 40/60 folding rear seats for extra space. It is equipped with safety features like pedestrian detection, auto braking and city safety which have won its standard sibling a five-star Euro NCAP rating

Volvo V40 Cross Country comes in following versions with 1 engine and 1 transmission and 1 fuel options.

Renault unveils 2014 V6 Formula 1 engine

Renault has shown off its F1 engine to meet next year's regulations and has named it the Energy F1-2014. Says it will be as loud as the V8s!

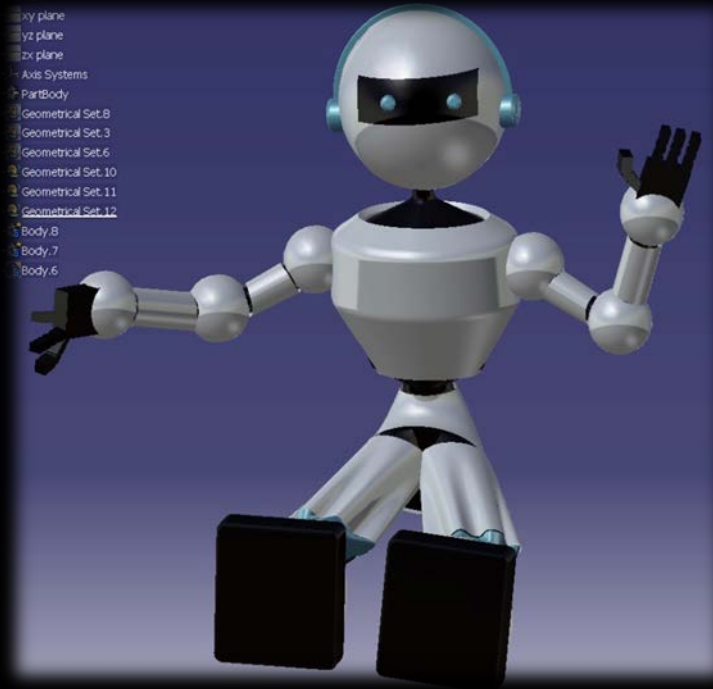

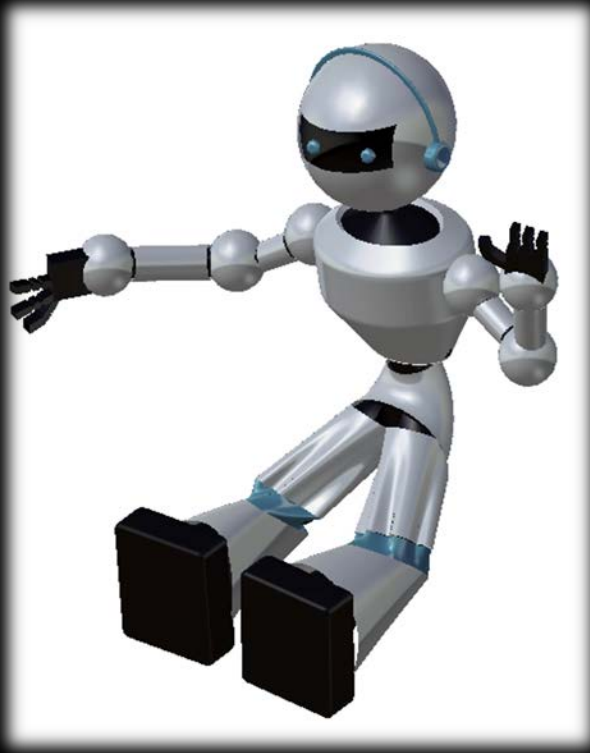

Formula 1 moves from the naturally aspirated 2.4-litre V8 engine configuration it currently uses to a more environmentally acceptable 1.6-litre turbo charged V6 formula next year. Renault has become the latest manufacturer to unveil its engine for next year and has named it the Energy F1-2014.

All eyes are on Formula 1's engine manufacturers with the change of regulations in 2014 set to usher in a new era in the sport.
